### **UP TO 90%<sup>1</sup> ENERGY SAVINGS**

Since the IntelliFlo VSF pump is ultra energy efficient, you can experience increased energy savings, up to 90%, when compared to conventional single- or two-speed pumps.

<sup>1</sup>Savings based on variable speed pump compared to a single-speed pump running 12 hours per day at an average of \$0.16 per kWh in a 20,000 gallon pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump rpm, plumbing size and length, pump model, service factor and other hydraulic factors.

**THE INTELLIFLO VSF PUMP IS PART OF THE TRADEGRADE FAMILY OF PRODUCTS—EXCLUSIVELY MADE FOR AND SOLD BY THE WORLD'S MOST DEMANDING POOL PROFESSIONALS.**

TradeGrade products give consumers the confidence that their pool pro is recommending the very best equipment and providing unmatched expertise for installation, setup and servicing.

### **EQUIPMENT PERFORMS PRECISELY AS DESIGNED**

- Filters get the right amount of flow to maintain water clarity.

## ADJUSTS TO YOUR POOL'S UNIQUE NEEDS

Every pool design is different, and conditions change, such as when filters accumulate debris over time. Other variable speed pumps require guesswork to set, and they don't adjust for flow changes. But, the IntelliFlo® VSF Pump does and always delivers just the right flow.

## SET IT AND FORGET IT

Just set the desired flow rate and the IntelliFlo VSF pump will adjust as needed to maintain it. It's that simple. There's no more guesswork. Kick back and enjoy your pool while the IntelliFlo VSF pump supplies the precisely set flow for peak equipment performance.

## ENERGY SAVINGS WITH FLOW CONTROL

Traditional variable speed pumps are set to run faster than needed early in the filtration cycle to compensate for flow reduction later as debris accumulates in the filter. The IntelliFlo VSF pump adjusts flow throughout the cycle to minimize energy use.

### Variable Speed:

RPM set high to maintain minimum flow

### Variable Speed and Flow:

Increases speed as needed to maintain preset flow

### Sparkling clean water

Always the right flow to maintain daily water turnover for optimum filtration.

### Visual perfection

Always the right flow so laminars, waterfalls and negative edges look their best.

### More efficient heating

Always the right flow for maximum heater efficiency.

## PERFECTING FLOW

By itself or integrated with an automation system, rely on the IntelliFlo VSF pump to precisely maintain your system's flow requirements, no matter the task.

*Always the right  
flow for a better  
pool experience  
and lower costs*
